13-20292 CABALLE Group Twinner for Datacable Pairs

Equipment designed to produce high quality communication pairs (LAN or other) based on group twinner technology i.e. two pay-off bobbins are mounted inside rotating bow. By just adding a take-up, a complete twinning line will be designed.

Cable specification:
- Cu wire dia.: 0.32 – 0.9 mm
- Pair diameter: 3 mm
- Insulation: PE, PP, foam skin

Pay-off bobbin size:
- Flange diameter: 500 mm
- Overall width: 375 mm
- Bore: 56 mm
- Weight: 100 kg

Wire tension: 0.2 – 1.5 daN

Twinning speed: 3000 TPM
